OBJECTIVE

AI & Data Science undergraduate focused on explainable machine learning and decision-support systems. Experienced in building end-to-end ML pipelines and full-stack system designs — from data preprocessing and model development to production-ready system architecture.

SKILLS

Python, Pandas, NumPy, Matplotlib, Scikit-learn, Data Analysis, Exploratory Data Analysis (EDA), Data Preprocessing, Feature Engineering, MySQL, MongoDB, Microsoft Excel, QR Code Integration, Classification Algorithms, Machine Learning Model Development, System Design

PROJECT EXPERIENCE

Smart College Management System (SCMS) *(Academic Project, In Progress)*

- Designed the full feature tree and system architecture for a college management platform covering attendance, curriculum, and records management.
- Engineered an anti-proxy attendance concept using rotating QR codes, GPS geofencing, and mock-location detection.
- Conducted a competitive analysis against Fedena, Creatrix Campus, ERPNext, MasterSoft, and Ellucian to define product differentiation.

Sales Analysis & Customer Churn Prediction

- Performed exploratory data analysis (EDA) on sales data to identify trends and customer purchasing behavior.
- Built a machine learning classification model to predict customer churn, using Pandas, Matplotlib, and Seaborn for preprocessing, feature engineering, and visualization.

Titanic Survival Prediction

- Developed a machine learning model to predict passenger survival using the Titanic dataset, applying data preprocessing, feature engineering, and multiple classification algorithms.
- Improved prediction accuracy through systematic feature selection and model tuning.

EDUCATION

B.Tech in Artificial Intelligence & Data Science 2027

S.B. Patil College of Engineering, Indapur, Maharashtra — Coursework: Machine Learning, Data Analysis, Database Management Systems, Python Programming

12th (HSC) in Science 2023

Shri Gopinath Secondary Higher Secondary & Technical School, Varvand, Maharashtra

10th (SSC) 2021

Shri Gopinath Secondary Higher Secondary & Technical School, Varvand, Maharashtra

CERTIFICATIONS AND TRAINING

- Python for Data Science — NPTEL, IIT Madras
- Database Management System — NPTEL, IIT Madras
